

T400

HTL

2 pulse encoder inputs

HTL/ TTL (RS422)

Selected with switch S2

5 analog inputs differential inputs 11 bits + sign ±10 V / 10 kOhm

4 digital outputs bi-directional 24 V DC (8 mA input current)

4 digital inputs alarm-capable 24 V DC (8 mA input current)

4 digital-inputs 24 V DC

MASTER DRIVES or DC-MASTER basic drive CUx

Serial interface 1 - Program download - CFC test mode (start-up) - USS (SIMOVIS)

2 analog outputs ±10 V / 10 mA 11 bits + sign

2 digital outputs DC 24 V/100 mA, 40 mA basic load for the external P24 infeed, which can also come from the basic unit

Absolute value encoder 1

Absolute value encoder 2

Serial interface 2: for - peer-to-peer - USS

Communications module e.g. CB1, ADB

Dual-Port-RAM

Dual-Port-RAM

MASTER DRIVES or DC-MASTER basic drive CUx
